About SanskaTots™

SanskaTots™ is India's premium Montessori learning brand, built by Indian parents for Indian children. Every book is designed by Indian educators, printed in India, and crafted for the curious minds growing up in Indian homes.

We saw parents buying activity book after activity book – each lasting just a few days before every page was used up. We saw toddlers gravitating toward screens because physical alternatives weren't engaging enough. We saw Montessori principles being sold at premium prices that Indian families shouldn't have to pay.

So we built something different.

"In a world of screens, we put a book in your child's hand."

— SanskaTots™, Designed in India by Indian educators.

"Every book we make is a small rebellion against screen time."

Why Parents Choose SanskaTots™
